SUBJECT: relocation of recycling containers for paint cans, gallons of oil and electronic items

In order to serve you better and make our village more welcoming, we moved the recycling container for paint cans, gallons of oil and electronic items. We have created a site outside the village core that is now at 27 Paugan Road. All our citizens can now take advantage of this service. We remind you that only the items, indicated in the subject matter can be deposit at the site. All other waste, (household garbage or regular recycling) must be deposited in bins provided for this purpose which are subject to the annual pick-up schedule.
