### PROPERTY ASSESSMENT FOR 2023-2024-2025

The property assessment roll is a summary of the inventory of immovables located on the territory of a municipality, evaluated on the same basis and on the same date. In effect for three fiscal years, it is used primarily to indicate the value of immovables to establish municipal property taxation.

The value of properties for this roll is based on the market value as of July 1, 2021, in accordance with section 46 of the Act respecting municipal taxation. The Gatineau Valley MRC is designated as the organization responsible for the assessment roll.

For this or any information request, contact the MRC at 819-463-3241, ext. 250. This is a voice mailbox, and your call will be returned promptly.

### WASTE COLLECTION

Since January 1, 2025, there has been a new selective collection system designed to promote recyclable materials. We encourage you to adopt this new habit of sorting residual materials and depositing them in the appropriate bins.

Consult [binimpact.ca](http://binimpact.ca) and the " a va o ?" application on our website for information on accepted and refused materials, as well as a few tips and tricks.

It's imperative that we continue our efforts to reduce the amount of material going to landfill, which is directly linked to the subsidies we receive. **The more you recycle and compost, the less it will cost in garbage fees!**
